

## SPEAKER CABLE

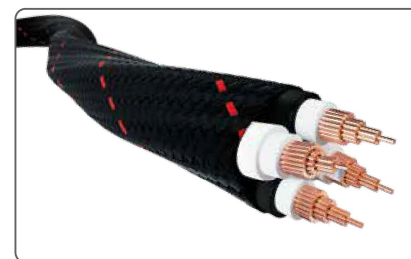

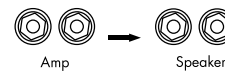

HIGH END DELUXE

★★★★★

made in  **GERMANY**

The HIGH END DELUXE speaker cable, consisting of a 4-fold multicore structure with concentrically arranged copper strands, impresses with its excellent electrical parameters and its attractive design. The arrangement of the wires and the stranded conductors, the high copper content, as well as the PE material in combination with the textile meshwork, ensure a natural and homogeneous reproduction of all frequency ranges.

- 4 x 2,97 mm<sup>2</sup> cross section
- Concentrically stranded copper wires
- Double symmetrical structure
- Double PE insulation around each conductor
- Dense textile meshwork as outer jacket
- 8,5 mm in diameter
- Low inductance and capacitance
- With BFA beryllium copper bananas or
